SPECIAL PRICES FOR OUR NEIGHBORS

Please note the low prices for a long list of stock grown to the high standard on which we have built our business. They represent values that are instantly apparent when stock is seen. In spite of the dry weather, we kept things moving this summer, roots are good and tops straight and strong.

JAN 17 1931

Strawberries	50c per 100					\$3.50	per 1000

With all these changes in marketing no line in our judgment presents better opportunities for profit than FRUIT GROWING. Time will come and that soon when the output of all home grown apples for example will find a ready market within the state. It will be a matter of STATE PRIDE and proper economy.
